

**1 x 10' (Dangerous Goods)  
Transportable Container**  
**1 x 10' (Dangerous Goods)  
Static Storage Container**

PRICE ON APPLICATION

PRICE ON APPLICATION

Both our static storage and transportable hazardous goods storage containers are robust, weatherproof, structurally sound, vermin proof, lockable and are compliant with Australian Standard 1940-2004

### Static Storage Hazardous Goods Containers

Static storage containers are built and designed to house flammable and hazardous liquids though are not compliant to be transported whilst storing those materials.

### Transportable Hazardous Goods Containers

Transportable hazardous goods containers will have all 4 original corner posts and corner casts. Transportable containers also have an additional Tyne pocket (forklift pocket) installed for ease of loading and unloading trucks.

### Both of Port Container Services Hazardous Goods Container supplied will feature:

- Fully welded steel flooring
- An RHS floor frame
- Front steel bund wall
- With all appropriate plates and signage
- Non spark mesh false flooring
- Lockable valve tap
- 4 large vents
- Double opening doors
- Storage capacity of 4,000 litres
- Painted colour of choice
