DANGEROUS GOODS CONTAINERS

Are you storing your hazardous materials safely?

Dangerous goods containers are a must have if your workplace needs to store potentially hazardous goods. Our range of HAZMAT certified goods containers means you can safely store a variety of hazardous goods including paint, thinners, oils, diesel, chemicals, class 3 flammables as well as a range of miscellaneous dangerous goods. Our containers are not only suited to store dangerous goods, but also non-hazardous materials where there are possible risks with spillage. Dangerous goods containers need to be of the highest quality possible. At Shipping Container Australia, we are experienced and skilled in all the elements required to create high quality dangerous goods and hazardous containers to the regulated Australian Standards.
